Pizza Oven

Gas/ Electric Pizza Oven Series (500°C EGO) Germany Brand

EK150-100
EK150-102

EK150-101
EK150-103

- *The oven is special designed for baking Pizzas, Biscuit, Egg-tart and cookies ;
- *All body material in full S/S 430 # with superior quality or Iron coating
- *The use of special brick stone with good storage temperature;
- *With mechanical thermostat 500°C EGO which is Imported from Germany with high quality, controlling temperature automatically and constant
- *Using superior stainless steel heater (#304) enable to make durable and heating even;
- *with flame-out protection device is in unexpected status to ensure safty;
- *The chamber material for all oven is used for aluminizing plate with fast heat transfer,high temperature resistant as well as be met with food safety standards ;
- *The oven with automatic pulse igniting and extinguishing safety valve in case of failure igniting ;

Pizza Oven

Economic Gas/ Electric Pizza Oven Series (400 °C Temperature controller)

EK150-104

EK150-105

- *The oven is suitable for all types of bread, cake, biscuit, mooncake, bean, pizza and cookies ETC;
- *Front Body material in S/S #430 with superior quality, other body sides material is used by aluminizing sheet which with good looking, strong rust-proof, this material won't get rusting after use at least 8 years;
- * Using large perspective window and double-layer tempered glass is very convenient to observe the status of baking things at any time and with light device ;
- *With Microcomputer digital Temperature display meter (0-400°C), controlling temperature automatically and constant, The top and bottom fire is controlled separately;
- *Using high-quality XIR Extreme infrared heater to make even heating ;
- *The chamber material for all oven is used for aluminized cold with fast heat transfer, high Temperature Resistant as well as to meet with food safety standards ;
